

On June 2nd, I urge you to retain the current ownership rules!  
We need rules in place that serve the public, rather than private,  
interest. I strongly oppose taking a vote that leads to more media  
consolidation. Please protect media diversity!

Due to consolidation in this industry in recent years, the local  
program directors of the Lexington country music stations say they  
have no authority to deviate from programming provided by their  
corporate owners, therefore, my wife's new music, which is well  
received by all who hear it, can't get any US airplay even in her  
own home town.

check her out if your have any real interest in what is happening in  
this business today at <http://Lolene.net>.
